PERSONAL STATEMENT

In my college I uses flutter to build a stock marketing application. During around one year experience on dreams Hub, I learn more industry knowledge and make me understand how wide what programmer can do. More than that, I learn how to build website from scratch, deploy tools such as docker and nginx, third party platform such as firebase, Mapbox and stripe. Able to effectively self-manage during independent projects, as well as collaborate as part of a productive team. willing to learn something new.
